How to test sqlalchmey(db) in interactive shell

- Enter into interactive shell:

```
(venv)->Python
>>> from app import db, create_app
>>> app=create_app()
>>> db.app=app
>>> app.app_context().push()
>>> db.create_all()
```

- import models, example:

```
>>> from app.models.student import Student
```

- Run query

```
>>> Student.query.all()
```
